

# PRODUCT DESIGNATION GUIDE

Specifying the correct product for any application and process is easily accomplished by following the steps below.

## 1. Product Name:

Select the base product. See individual Glass Specification Sheets for selection details.

<u>Product</u>	<u>Code</u>
Pearlveil: .....	1
Curveil: .....	2
Flexiveil: .....	3

## 2. Binder Type:

Select correct binder for the application: See Binder Specification Sheet selection details.

<u>Binder Type</u>	<u>Binder Code</u>
100 Series: .....	1
Other: .....	Consult Factory

## 3. Binder Percent:

Specify the desired binder percentage:

<u>Binder Percent</u>	<u>Code</u>
Standard Percent: .....	0
2% - 4%: .....	1
4% - 6%: .....	2
6% - 8%: .....	3
8% - 10%: .....	4
10% - 12%: .....	5
Other: .....	Consult Factory
